Our Mission

PADRES Contra El Cáncer (PADRES) is a non-profit organization committed to improving the quality of life for Latino children with cancer and their families.

Our Purpose

Founded in 1985, PADRES brings together children, families, healthcare professionals and community leaders to promote a comprehensive understanding of childhood cancer and other blood disorders, as well as effective methods for their treatment. Located at Childrens Hospital Los Angeles, PADRES currently remains the only Latino organization of its kind operating within the United States.

PADRES' unique and inclusive program model is premised upon the delivery of a health and education curriculum designed to be culturally-relevant, family-centered and community-based. While primarily oriented to the Latino community, PADRES' programs, activities and services benefit childhood cancer patients and their families from all races, nationalities and ethnic origins.

NO FAMILY IS TURNED AWAY.
